

# LIVE OAK VETERINARY HOSPITAL

14729 Mono Way, Sonora, CA 95370  
(209) 432-9437

Welcome to Live Oak Veterinary Hospital! We are honored you have entrusted our hospital for your pet's veterinary care. Our entire staff strives to provide excellent customer service to you and exceptional, quality care for your pet.

We are proud to be the only hospital in Tuolumne County accredited by the American Animal Hospital Association (AAHA). This organization requires the very highest standards for small animal medicine and surgical care, even higher than those required by the State of California.

Pets are like people in a number of ways, including their need for health checkups on a regular basis. Live Oak Veterinary Hospital takes a proactive approach to pet wellness, which is why we require Annual Wellness Exams, as well as dog and cat vaccinations and parasite control. Annual Wellness Exams for your pet are as essential as food and love which are the foundation of preventive healthcare. These visits allow us to examine your pet from nose to tail to ensure they are healthy and are the best way to keep your pet as healthy for as long as possible, because it is much easier and less expensive to prevent disease than to treat it.

Our hospital offers a wide range of veterinary services for your furry family members:

- Annual Wellness Exams
- Sick/Injured Exams
- Vaccinations
- In-house pharmacy - flea, tick & heartworm prevention & medications
- Nail trim, anal gland expression & deworming
- Dentistry - cleaning & extractions
- Surgeries - spay, neuter, growth removal, abdominal, soft tissue & orthopedic
- Diagnostics - blood work & on site, state-of-the-art x-rays & ultrasound
- Chemo & stem cell therapies
- House Calls
- Boarding

We know emergencies can and do happen. Unlike other veterinary hospitals in Tuolumne County, we provide after hours emergency care to our patients who have a current annual wellness exam. If a pet has an emergency outside of normal business hours, clients can call our office and select the emergency option. If we are unable to respond within 20 minutes, clients are directed to contact Standiford Veterinary Center 24 Hour Emergency Services in Modesto at (209) 577-3481 or Taylor ER Veterinary Emergency Hospital in Turlock at (209) 669-8600.

**All appointments require confirmation** and are confirmed via text, phone call and/or email one business day prior to the scheduled appointment. We have a long list of clients waiting to schedule appointments. **If you do not confirm your appointment, it will be released** to a patient in need.

It was a pleasure meeting you and your pet. Please call anytime you have questions or concerns regarding your pet's health. Additionally, our website [sonoraliveoakvet.com](http://sonoraliveoakvet.com) is a great resource for information about our hospital and services. From our website you can also request appointments and prescription refills. We will always do our very best to provide outstanding care for your pet, to communicate clearly and earn your trust.

Sincerely,

Mitch Luce, DVM
